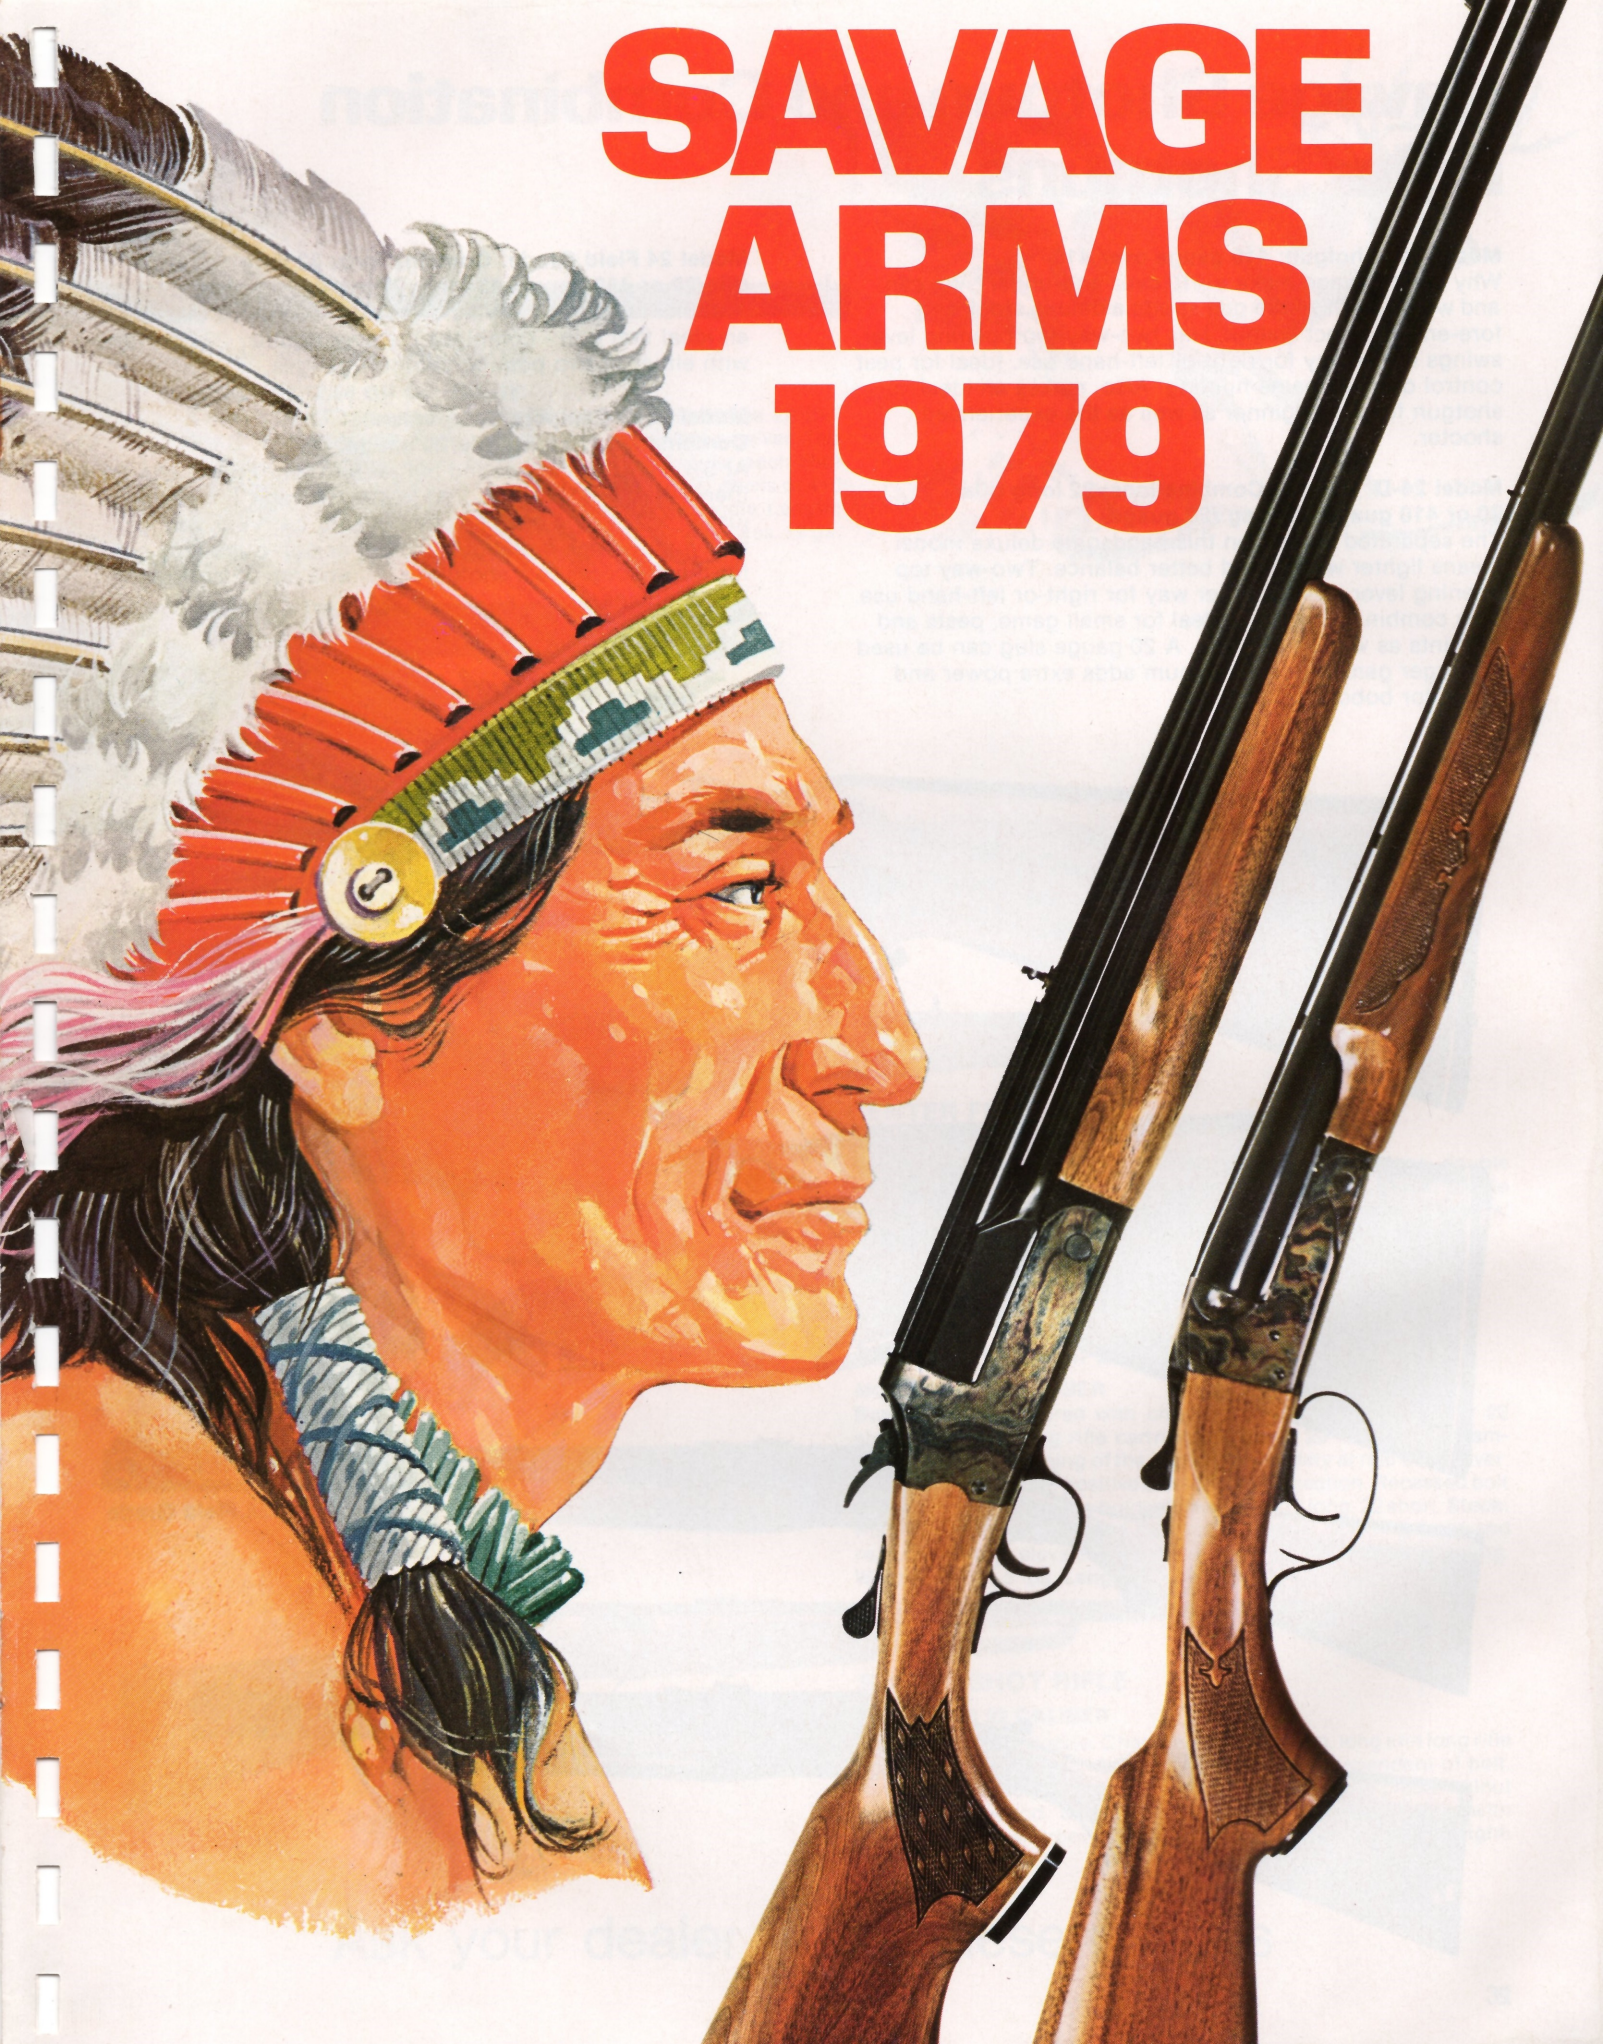
SAVAGE ARMS 1979



Savage Shotgun and Combination Rifle/Shotguns

Model 242 Shotgun: 410 gauge over 410.
Why can't Savage make a 410 over-and-under? We can, and we do it. This little gun sports a deluxe stock and fore-end of select walnut. Has two-way top opening lever, swings either way for right-or left-hand use. Ideal for pest control or small game hunting. Also, makes an ideal shotgun for the beginner as well as the experienced shooter.

Model 24-D Deluxe Combinations: 22 long rifle/ 20 or 410 guage; 22 Mag./20 guage.
The separated barrels on this handsome deluxe model means lighter weight and better balance. Two-way top opening lever swings either way for right-or left-hand use. This combination gun is ideal for small game, pests and varmints as well as plinking. A 20 gauge slug can be used for larger game; the 22 magnum adds extra power and range for bobcat, fox, turkey.

Model 24 Field Grade Combinations: 22 long rifle/20 or 410 gauge; 22 Mag./20 gauge.
A combination gun at a field grade price makes this model an ideal first gun - combines the ever popular 22 cartridge with either of two popular shotgun gauges.

Model 24-C Campers Companion Combination: 22 long rifle/20 gauge.
At 5¾ pounds, it's a pound lighter and four inches shorter than other 24's. When stored in special case, it measures just 5" x 22". The case has handles for carrying, thongs for tying to pack or saddle. Trap door butt plate flips out for quick access to a shotgun shell and ten 22 cartridges (case included).

Note:

The only full line of American-made rifle/shotgun combinations.

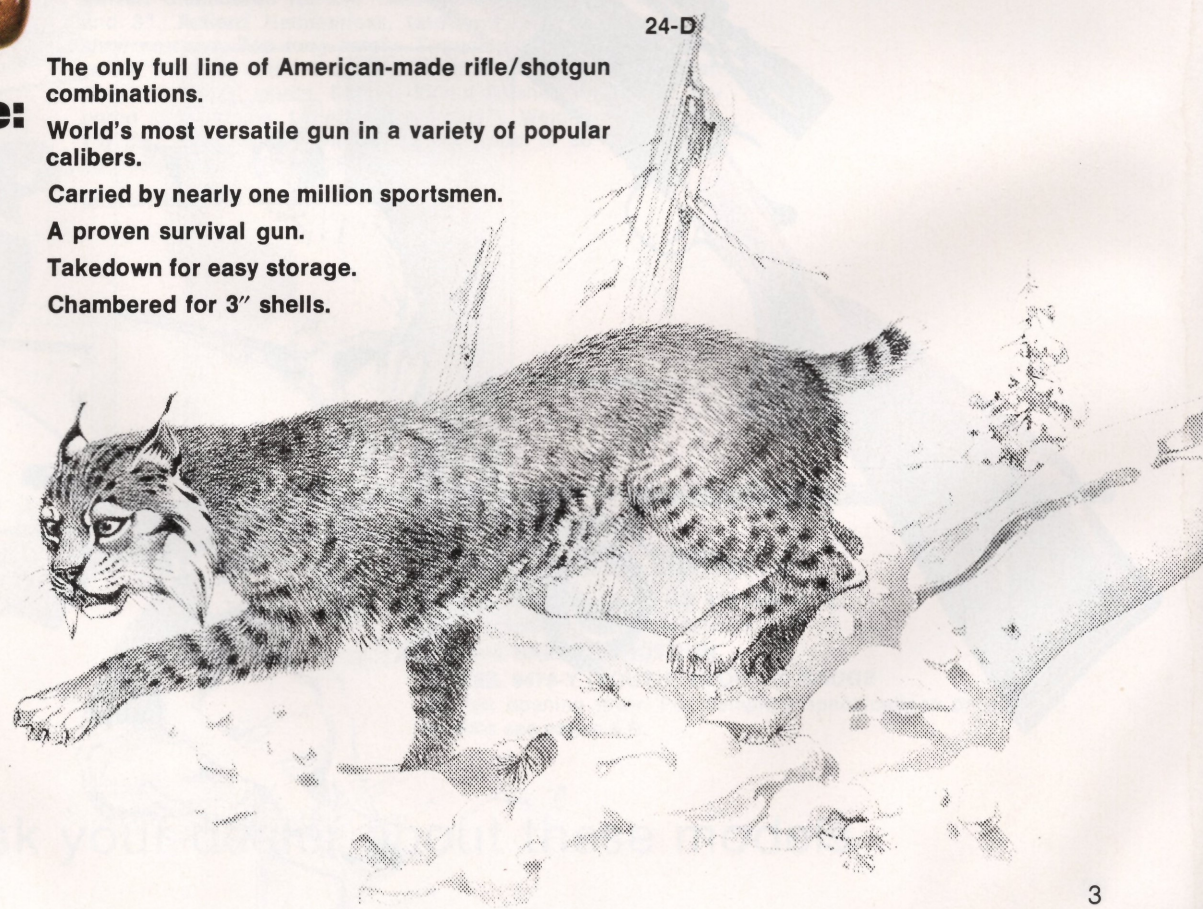
World's most versatile gun in a variety of popular calibers.

Carried by nearly one million sportsmen.

A proven survival gun.

Takedown for easy storage.

Chambered for 3" shells.



Savage Combination Rifle/Shotgun

Model 24-V Combinations: 30-30/20 gauge; 222/20 gauge, and NEW 223/20 gauge.
The 20 gauge takes regular and 3″ magnum shells, perfect for all small game or pests. Use a 20 gauge slug and you are set for larger game. Choose the 30-30 version for deer and other medium size game; the 222 version and 223 version for turkey, small game, and varmints.

New Model 24-V Companion Rifle/Shotgun Combination: .357 Magnum (38 Special) over 20 gauge
This unique combination firearm adds greater versatility for the hunter, camper or backpacker who carries a handgun of the same caliber during outdoor activities.

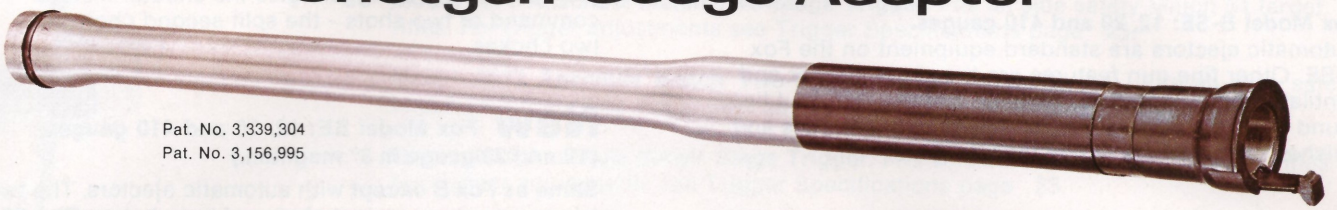
Re-Introducing The Savage Four-Tenner Shotgun Gauge Adapter



Pat. No. 3,339,304
Pat. No. 3,156,995

IDEAL FOR SIDE – BY – SIDE DOUBLES

FITS OVER – AND – UNDER GUNS

Model 412 in 2 sizes, fits 12 and 20 gauge shotguns. The Savage "Four-Tenner" converts most break-action shotguns — single barrel, side-by-side double, or over-and-under — to fire 410 gauge shells. Just slip the "Four-Tenner" into the breech of the gun like an extra long shell. Center the auxiliary extractor over the gun's own extractor. It will function as an extractor or an ejector, depending on the action of the gun. To return to the larger gauge, the adapter is easily removed. No alteration of gun is required.

The featherweight "Four-Tenner" weighs only 5 ounces, and has a slim silhouette. Breech is proof-tested steel, barrel is aluminum. Only 12 inches long, it is centered in the bore by a neoprene O-ring. With adapters you can — share your shooting enjoyment with the family. 410 shells cost less and there's almost no recoil — hunt woodcock, quail or other small game. Control pests around the farm or home.

TWO GUNS FROM ONE SINGLE BARREL

Double Your Sport... Double Your Fun With The "Four-Tenner"

Fox and Stevens Double Barrel Shotguns

SPORTSMEN THE WORLD OVER PREFER A DOUBLE GUN. It's easy to see why. From the early days of European gunsmithing the graceful lines, slim profile and ease of handling have made it a traditional favorite among true sportsmen. Doubles point faster, carry easier because of their short, compact frame design and thus, shorter overall length.

Fox Model B-SE: 12, 20 and 410 gauges.
Automatic ejectors are standard equipment on the Fox B-SE. Other fine gun features are the single trigger and ventilated rib. The handsome B-SE has the beautiful lines found only in a double gun, enriched with materials and finishes typical of expensive custom guns.

Fox Model B: 12, 20 & 410 gauges.
(12 and 20 gauge in 3″ magnum.)
For sheer beauty of design, fine balance and fast handling, nothing equals a double - the traditional sporting gun. And there isn't anything like the Fox B at anywhere near its price. Standard equipment includes ventilated rib, checkering, select walnut stock with fluted comb, beavertail fore-end. Two triggers give the shooter instant command of two shots - the split second choice of two chokes.

New **Fox Model BE: 12, 20 and 410 gauges.**
(12 and 20 gauge in 3″ magnum.)
Same as Fox B except with automatic ejectors. The two triggers give you instant choice of two chokes. Plus 3″ magnum chambering in 12 and 20 gauge.

Use a Savage "Four-Tenner" in 12 or 20 gauge guns for greater versatility.

The Stevens Model 311: 12, 16, 20 & 410 gauges.
(12 and 20 gauge in 3" magnum.)
This double barrel shotgun is the outstanding value of the double gun field, with many refinements usually found only in higher priced guns. Its sturdy construction, solid lockup, excellent balance and superior shooting qualities are appreciated by many thousands of satisfied users throughout the world.

Stevens Single Barrel Shotguns

Stevens Model 94-C; 12, 16, 20 and 410 gauge.
Still the most popular single barrel shotgun ever made. The 94-C has the dependable hammer style action preferred by many. Opening lever on top tang swings either way-equally convenient for right- or left-hand operation. Powerful ejector functions automatically when gun is opened. Checkered, walnut finished hardwood stock and fore-end. Fore-end is grooved for better handling. Available with 36 inch "Long Tom" barrel in 12 gauge.

Stevens Model 94-Y Youth Model: 20 and 410 gauges.
Top lever opening. Has shorter stock with rubber recoil pad. 26 inch barrel, 20 gauge modified or 410 gauge full choke.

Stevens Super Value Model 9478: 10, 12, 20, 410 gauges.
A new and exciting single barrel shotgun design destined to become a favorite among beginning and experienced hunters alike.

Special Features:
Manual cocking, visible hammer, rugged coil spring. Automatic ejection and new design bottom-opening lever convenient for either right- or left-hand use. Frame has color, case-hardened finish.

Stevens Super Value Model 9478:
10 gauge Waterfowl is fitted with special 36" barrel. Stock is fitted with rubber recoil pad, and fore-end is grooved for super grip.

Stevens Super Value Model 9478-Y Youth Model: 20 and 410 gauges.
Bottom opening lever. Has shorter stock with hard rubber butt plate. 26 inch barrel, 20 gauge modified or 410 gauge full choke.

Savage 99 Lever Action Center Fire Rifles

Why is it accurate?
Let's start with the 99's stock. Through its heart runs a rugged bolt that locks stock to receiver like a vise holds wood. Result? Stock and receiver always act as one, contributing greatly to accuracy.

Then there's the short stroke lever for faster operation.
And when it's open no working parts are exposed to weather. Unlike ordinary lever actions that start to cock the hammer while ejecting the shell, the 99 does it in two easy stages, avoiding a double load. Down ejects the case. The return stroke does the cocking. The whole motion is smoother and faster, increasing your effective fire power.

Signature Model 99-CD The North American Classic - Calibers: 250 Savage; 308, and 243
Time-tested Savage design plus added features, which will appeal to the most serious shooter, are combined in the 99-CD detachable box magazine rifle. As a final touch - the Savage Signature medallion pistol grip cap to highlight the top of our lever action line.

Special Features:
Select walnut stock designed with a high Monte Carlo, cheek-piece and deeply fluted comb. Stock and grooved fore-end hand checkered with swivels. Detachable hooded ramp front sight, rear sight adjustable for elevation and windage. Truly a long-awaited addition to the Savage tradition of quality.

Model 99-C Calibers: 243 and 308, 22-250
Another Savage 99 with detachable box magazine. Makes loading and unloading fast. An extra loaded clip means reserve firepower is ready when needed. Clip follows the graceful contours of the receiver; locks into place instantly and ejects when you press release button (recessed in receiver to protect against accidental release). Extra magazine available (specify caliber).

Patented ejector clip magazine.

Solid steel receiver goes through over 100 machining operations.

Top tang safety for both right- and left-hand use.

99-C

Savage 99 Lever Action Center Fire Rifles

Model 99A Calibers: 243, 308 and 250 Savage
History and modern manufacturing combine to make this lever action rifle with the straight (saddle) stock with steel butt plate and the schnabel fore-end. The same fine rotary action in the solid steel receiver that has proven itself for years in the 99 line.

Model 99-358 Caliber: 358
Much recent demand for a rifle in a caliber with brush-bucking performance has necessitated the introduction of this rifle.

A fast-handling rotary magazine rifle with straight stock with recoil pad, grooved fore-end for firmer control, fitted with swivel studs. Another long-awaited addition to the Savage 99 line.

Model 99-E Calibers: 300 Savage; 243 and 308
Here's the classic high power Savage lever action with all the solid virtues of its time-tested design without any frills to increase the cost. Now there's no need to settle for a lever action in less powerful calibers. An outstanding value.

Time-tested rotary magazine

Savage Pump Action Center Fire Rifle and Carbine

Model 170 Calibers: 30-30, 35

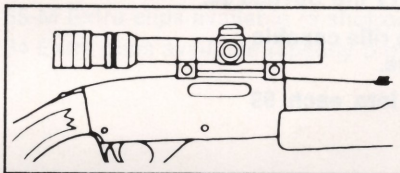
Until it was introduced deer and black bear hunters had little real choice when it came to a dependable, rapid-fire rifle at a modest price.

The 170's pump action is a natural action. A front-to-back motion that's in the line of sight so your sights stay on the target.

Quiet Performance. When stalking or on stand, any sound can cost you your deer — the Silent-Lok feature muffles slide handle sound.

Model 170-C (Carbine) 30-30

The 170 is offered in an even faster handling carbine variation. Shorter barrel (18½"). Sporter stock and Silent-Lok feature. The 170-C is a natural in heavy brush hunting or at close quarters where quick reactions plus a smooth functioning and fast handling carbine could mean the difference.



Receiver drilled and tapped to mount scope.

Savage No. 70 (Integral Bases and Rings) Mount.

A tough, inexpensive two piece steel mount for the Savage 170 and 170-C. Top mounted for over-the-bore position. Two piece integral bases and rings, complete.

Savage 110-C, 110-CL, 110-S, 112-R

THE ULTIMATE

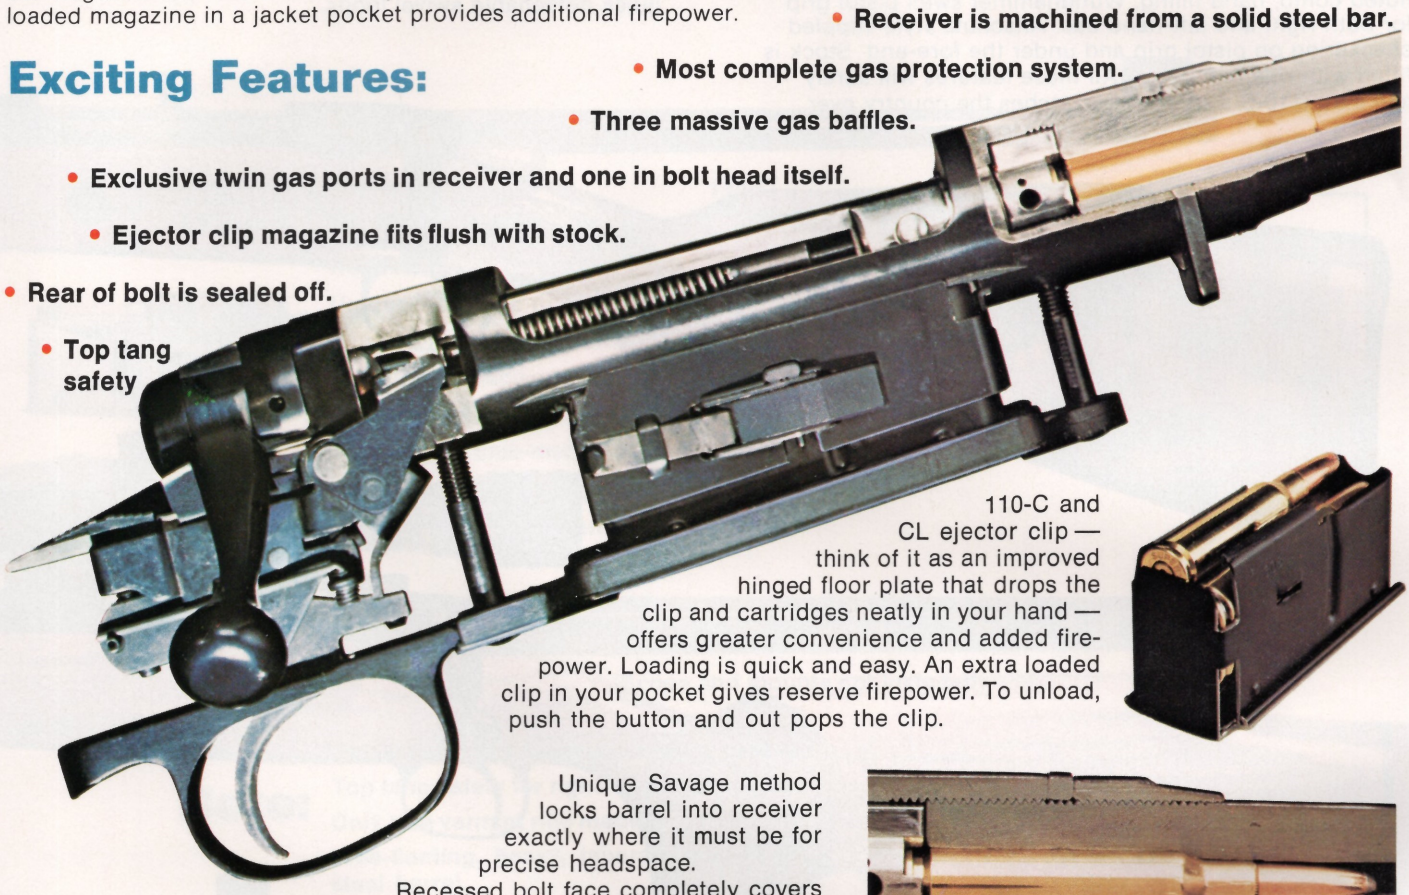
in Bolt Action Center Fire Rifles

Model 110-C (right-hand) 110-CL (left-hand) Calibers: 30-06 Spfld., 270, 243 and 7 mm Magnum.
The solid features of the 110 plus the detachable box magazine for convenient loading and unloading. To unload, press the recessed button and out pops the magazine with the shells neatly held and tips protected! An extra loaded magazine in a jacket pocket provides additional firepower.

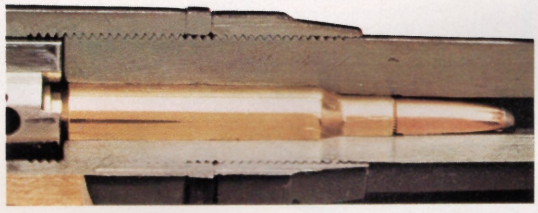
- **Receiver is machined from a solid steel bar.**

Exciting Features:

- **Most complete gas protection system.**
- **Three massive gas baffles.**
- **Exclusive twin gas ports in receiver and one in bolt head itself.**
- **Ejector clip magazine fits flush with stock.**
- **Rear of bolt is sealed off.**
- **Top tang safety**

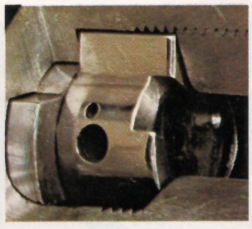


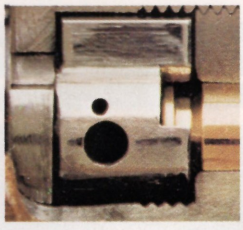
110-C and CL ejector clip — think of it as an improved hinged floor plate that drops the clip and cartridges neatly in your hand — offers greater convenience and added firepower. Loading is quick and easy. An extra loaded clip in your pocket gives reserve firepower. To unload, push the button and out pops the clip.

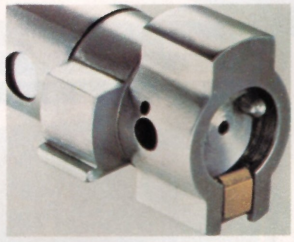


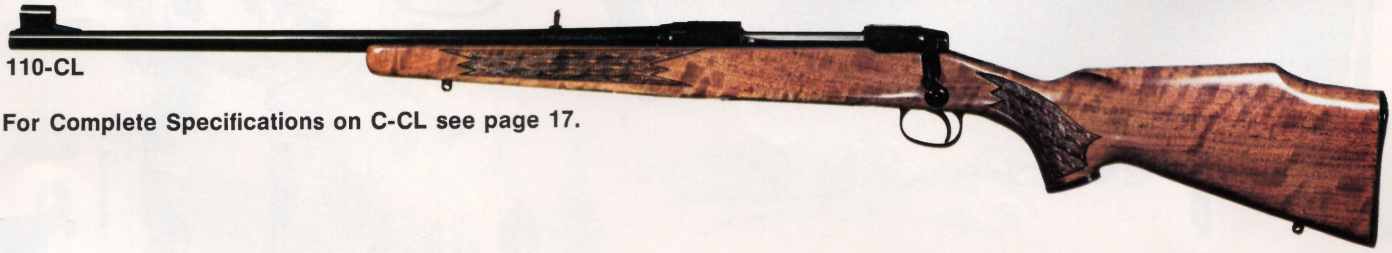
Unique Savage method locks barrel into receiver exactly where it must be for precise headspace.
Recessed bolt face completely covers and supports cartridge head. Two massive, heat-hardened steel locking lugs fit intimately to steel receiver. Result — all the strength you expect from a bolt action rifle.

Exclusive twin gas ports in receiver, gas baffle lugs on bolt and bolt end cap give most complete protection you can get. And our new Satinslide bolt gives you a smoother, faster working action.









110-CL

For Complete Specifications on C-CL see page 17.

Savage Bolt Action Center Fire Rifles

Model 110-S Silhouette Rifle (right-hand only) Caliber: 308
Metallic Silhouette shooting is the fastest growing shooting sport today. Savage has once again responded to the many inquiries with a rifle especially designed for this great shooting sport.

Special Features:
The many famous 110 action features have been combined with a heavy 22" tapered barrel (7/8" diameter at the muzzle) for greater accuracy. Receiver is drilled and tapped for scope mounting, satin blue finish on receiver to reduce light reflection. The barrel is free floating in special "Silhouette" stock of select walnut, has high fluted comb, hand filling, Wundhammer swell pistol grip for both right and left-hand use. Anschutz style stippled checkering on pistol grip and under the fore-end. Stock is fitted with rifle recoil pad. All these features will surely make the 110-S a favorite in matches the country over.

New Model 112-R (Repeater) The Varmint Hunter's Varmint Rifle—Calibers: 22-250, 25-06
The only true varmint rifle made today with the varmint hunter in mind.

Special Features:
A 26" tapered barrel (13/16" diameter at muzzle) for greater accuracy. Receiver is drilled and tapped for scope mounting. Blocks are also provided for target type scopes. Free floating barrel in special varmint stock of select walnut has high, deeply fluted comb, Wundhammer swell pistol grip for right- or left-hand use. Stock is fitted with white-line recoil pad and 1¼" quick detachable swivel loops.

Put all these together with time-tested Savage features, such as unique method headspacing, top tang safety, Satinslide bolt and massive locking lugs—you have very potent varmint medicine.

Savage 340 and Anschutz 1432 Bolt Action Center Fire Rifles

Anschutz Model 1432 Caliber: 22 Hornet
Known the world over for accuracy and quality, Anschutz has introduced this handsome sporter featuring a custom Monte Carlo stock with roll-over cheek-piece, contoured pistol grip and graceful schnabel fore-end. Grip and fore-end are lavishly hand checkered in a skip-line pattern. The stock is of select walnut. Receiver is grooved for scope mount and drilled and tapped for scope bases. All these custom features add up to a winner in the true Anschutz tradition.

1432 Extra clip available (5 shot)

Savage Model 340 Calibers: 30-30; 22 Hornet; 222, 223
Proper headspace is vital for accuracy. Precision headspacing of the 340, achieved by a unique Savage method for exceptional performance. The bolt locks up in front, for greater strength and accuracy. The barrel is precision rifled and the muzzle is crowned.
The bolt handle is curved. The streamlined stock is American walnut, complete with checkering, Monte Carlo, pistol grip cap and white line spacers.

Savage No. 40 One Piece Mount
A sturdy and inexpensive steel mount for one inch scopes. Savage 340 is drilled and tapped on the left side for this mount. Places scope in the normal over-the-bore position. One piece mount, complete.

Savage/Anschutz & Anschutz 22 Sporters

Model 54 Sporter 22 long rifle. Model 54-M 22 Magnum. The model 54 Sporter combines the world's most accurate small-bore action with a handsome sporting stock that would do credit to the finest custom stock-maker. The Monte Carlo stock of select walnut is strictly custom grade from the hand-carved roll-over cheek-piece and contoured pistol grip to the graceful schnabel fore-end. Both fore-end and pistol grip are lavishly hand checkered in a skip-line pattern. Receiver is grooved for scope mount and drilled and tapped for scope bases.

The 54-M magnum offers Anschutz-accurate shooting up to 100-125 yards for the varmint and small game hunter. Exceptional Anschutz accuracy makes the 54-M a natural for the magnum cartridge.

54 Extra clips available (specify 5 or 10 shot)

54-M Extra clips available (4 shot only)

Model 164 22 long rifle. Model 164-M 22 Magnum. Here's the blood brother of the 54 Sporter, the rifle that has been so much in demand by sportsmen. The action of the 164 is the same one used on the popular Savage/Anschutz model 64 target rifle. The barrel is precision bored for pinpoint accuracy. Receiver is grooved for instant scope mounting. The select walnut stock has custom grade features - Monte Carlo with cheek-piece, Wundhammer swell pistol grip, schnabel fore-end and cut checkering. The 164-M is chambered for the 22 magnum cartridge for those longer range shots.

164 Extra clips available (specify 5 or 10 shot)

164-M Extra clips available (4 shot only)

Anschutz Model 1418 22 long rifle Model 1518 22 Mag. The action is the same as the popular model 164 but the stock is completely European. This compact Mannlicher sporter is bound to be an American favorite, just like its predecessor, the model 164. With features such as a choice of double set or single stage triggers, hand cut skip-line checkering, stock inlays and European style Monte Carlo stock with cheek-piece, to name just a few.

1418 Extra clips available (specify 5 or 10-shot)

1518 Extra clips available (4-shot only)

Available on special order only. For further information contact your dealer or write Savage Arms, Westfield, Massachusetts 01085.

Savage-Stevens 22 Rifles

Savage Model 80 22 long rifle.
This deluxe autoloader has the style and feel of a high power rifle. Checkering, Monte Carlo stock. White-line pistol grip cap and butt plate. The tubular magazine holds 15 22 long rifle cartridges. This dependable autoloader performs as well as it looks. Grooved receiver for instant scope mounting. Set your sights on a deluxe autoloader - choose the Savage model 80.

Savage Model 65-M, 22 Magnum.
The Savage 65-M, with select walnut Monte Carlo stock, is patterned after a high powered rifle. The solid steel receiver houses a smooth, fast bolt action with crisp trigger pull. Action is dependable, with bolt encased in the receiver, a recessed bolt face, and double extractors.

Stevens Model 34, 22 long rifle.
Has checkered walnut finished hardwood stock with Monte Carlo, solid steel receiver and fast, smooth bolt action with crisp trigger pull. Convenient thumb safety at rear of the receiver for easy operation. The receiver is grooved for scope mounting.

65-M Extra clips available (5 shot only)
34 Extra clips available (specify 5 or 10 shot)

Stevens Model 89, 22 long rifle.
This little single shot has the balance and feel of a traditional western carbine. Featuring western style lever action with a rugged Martini-type breech block, automatic ejection. Hammer must be cocked by hand independent of the lever prior to firing. Ideal for that young beginner.

Stevens Model 73, 22 long rifle.
For the man or boy choosing his first gun - for anyone who wants a dependable bolt action rifle at a reasonable price. Safety goes on automatically when the bolt is operated - an ideal design for a first rifle. The free-floating barrel is precision rifled. With a handsome stock and streamlined receiver.

Stevens Model 73-Y Youth Model, 22 long rifle.
Same as 73 except shorter barrel and stock and the weight is only 4¼ pounds. Truly a good choice for a youngster.

Stevens Model 72 Crackshot, 22 long rifle.
This unique falling block action is a pleasure to handle, shoot or simply admire. It has balance, smooth functioning and safety. This popular 22 rifle is truly in the great Stevens tradition. It features an octagonal barrel, case hardened frame, walnut stock and fore-end with oil finish.

Anschutz Target Rifles

ANSCHUTZ is respected throughout the world as one of the finest rifles available for small bore competitive shooting. At Montreal, Camp Perry and at national and international matches, an ANSCHUTZ is the preferred choice.
Now, ANSCHUTZ has made their great rifles even greater... Completely New Revolutionary Triggers and Bolt Design for the Models 1413, 1411 and 1407.
Model 1413 Super Match 54.
The Free-style International target rifle that has and should continue to dominate international competition. For these very telling reasons:
A Superb Match 54 bolt design that is satin smooth. Very short firing pin travel for improved lock time. Conveniently located side safety. The model 5071 Match Two-Stage Triggers (see trigger specification) are even faster, even more precise and reliable. The mechanism reaction time is reduced. Other features include combination hand-stop/sling swivel, hook butt plate for right- and left-hand use, No. 4840 adjustable palm rest and adjustable butt plate and cheek-piece. The 1413 — a winner in the true international tradition. Left-hand stock 1413-L (sights extra).

Model 1407 Match 54
Meets all existing International Shooting Union requirements and is currenty suitable for All N.R.A. matches.
Has satin smooth Match 54 bolt design, just like the 1413. Also, the 5071 Match Two-Stage (see trigger specifications) for precise and reliable adjustments. Convenient side safety. The whole stock and pistol grip are sculptured to fit the shooter whether it be a prone or position match. Hand stop/sling swivel are included. 1407 right-hand, 1407-L left-hand (sights extra).

Model 1411 Match 54
Here's the world famous Anschutz prone rifle with the Match 54 bolt design. Very short firing pin travel for extremely fast lock time. Conveniently located side safety. Model 5075 Match Single Stage Triggers (see trigger specifications) are even faster, even more precise and reliable. The mechanism reaction time is reduced. Other features include adjustable cheek-piece, combination hand-stop sling swivel and adjustable butt plate. The 1411 right-hand and left-hand 1411-L (sights extra).

Anschutz Barreled Actions.
Now available Match 54 barreled actions in the following designations:
A. 1413-U2 with two-stage trigger 5071 for model 1413.
B. 1411-D-U3 with single stage trigger 5075 for model 1411.
C. 1407-U6 with two-stage trigger 5071 for model 1407.
Barreled actions include barrel, action and triggers.

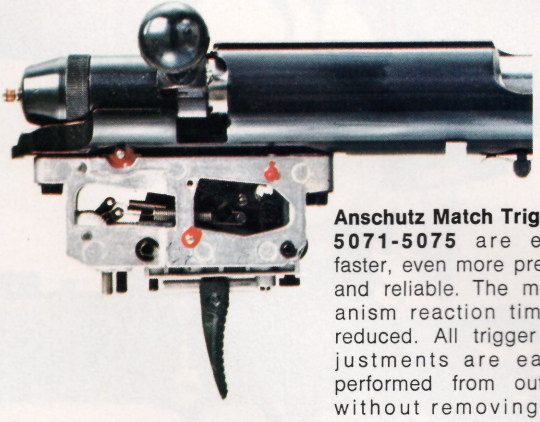
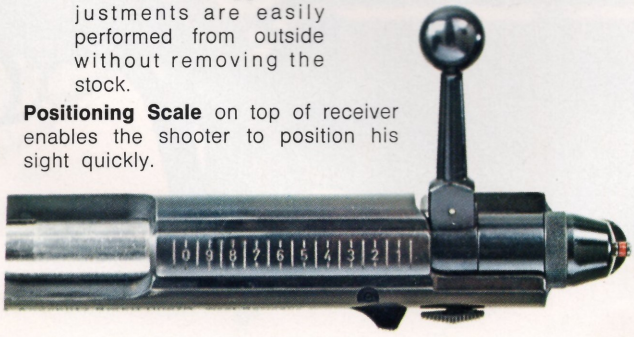
1413



Anschutz Match Triggers 5071-5075 are even faster, even more precise and reliable. The mechanism reaction time is reduced. All trigger adjustments are easily performed from outside without removing the stock.

Anschutz Match 54 Bolts have very short firing pin travel for extremely fast lock time. Conveniently located, side safety.

Positioning Scale on top of receiver enables the shooter to position his sight quickly.



Savage/Anschutz Target Rifles and Anschutz Match Air Rifle

Savage/Anschutz Model 64.
The 64 offers shooters a superior but moderately-priced, medium-weight entry into the world of international champions. Target stock has checkered pistol grip, contoured thumb groove, Wundhammer swell, I.S.U. style stock (similar to 1407) and adjustable butt plate with black-line spacer — allows you to adjust length of trigger pull to your own specifications. Three-pound single stage trigger is adjustable for weight of pull, take-up and overtravel. 64-S models are equipped with Anschutz 6723 Match Sight Set. 64 right-hand and 64-L are without sights. 64-S right-hand (with sights), 64-SL left-hand (with sights).

Savage/Anschutz Mark 12
Here's a target rifle with true target rifle features designed in the winning Anschutz tradition. The action is similar to that used in the Savage/Anschutz model 64. The heavy 7/8" diameter 26" long barrel is precision rifled. Other features the competitive shooter needs for the best possible scores include an authentic target rifle stock with cheek-piece, thumb groove and Wundhammer swell pistol grip; adjustable hand stop and sling swivel.

The Mark 12 comes fully equipped with front and rear target sights. The rear micrometer sight has click adjustments for windage and elevation. The globe front sight has seven aperture and post inserts for various shooting conditions and individual preferences.

Anschutz Model 250 Match Air Rifle. Caliber 177.
This superior match air rifle is known the world over for its accuracy. Wherever the match competition is stiffest you will find the Anschutz 250. Available on special order only. For further information contact your Savage dealer or write Savage Arms, Westfield, Massachusetts 01085.

Mark 12 Target Sling now available for your Savage/Anschutz target rifle. Made of genuine leather and fully adjustable. For either right- or left-hand use.
